# Bariatric Surgery

## Bariatric and Metabolic Institute Prescribed Education

We consider you the most important member of your health care team. We want you to have the best and safest experience possible. To help you prepare for your upcoming procedure, your doctor strongly suggests that you view an Emmi® program.

### What are Emmi programs?

Emmi programs are online tools that take complex medication information and make it simple and easy-to-understand. We offer Emmi programs for both adults and children and the programs can help you prepare for an upcoming procedure or manage a chronic condition.

Watch the Emmi program as many times as you like, with your family, friends or anyone else who may be involved in your care. There are additional Emmi programs available - ask your healthcare provider about other Emmi programs that might be right for you.
